

DESKTOP PNEUMATIC MARKING MACHINE

PRODUCT PARAMETERS

Drive mode	Pneumatic
Material hardness	Imported alloy HRA93.8, coating hardening can mark materials with HRC65 hardness
Body height	0.01-1mm
Marking range	140mmx80mm
Marking depth	0.1-0.5mm
Marking content	Numbers, letters, Chinese characters
Marking speed	100 characters/minute
Impact frequency	100 times/second
Motion accuracy	≤0.1mm
Operating ambient temperature	- 10℃ — 50℃
Packaging dimensions	400mm*600mm*900mm
